

Once you see it, you can't unsee it.

Off-center with typical linear slot light

On-center with GEMINI

Guarantee your on-center specification with **GEMINI™**

JLC • tech *Structurally Integrated Lighting*

Off-center installation with typical linear slot light

Off-centered

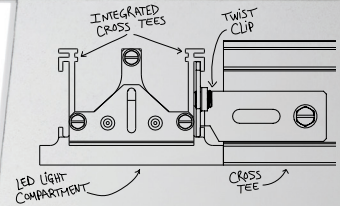

Light on tiles

Grid on either side of fixture

On-center

Even illumination

with
GEMINI™

No custom opening

GEMINI's integrated cross tees and twist clips allow for a seamless structural integration into the suspended ceiling. Eliminating complicated ceiling construction or special ceiling bracket supports, making installation easy and guaranteeing on-center installation!
