Structurally Integrated Lighting

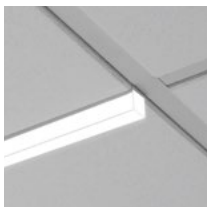

Diffusing Lens

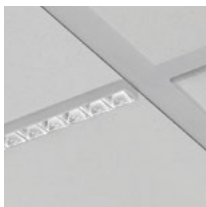

Diffused White Lens

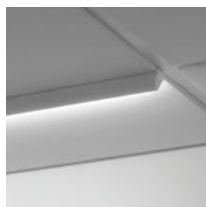

Block Clear Diffusing Lens

Block Frosted Diffusing Lens

Multi-Reflector

Asymmetric

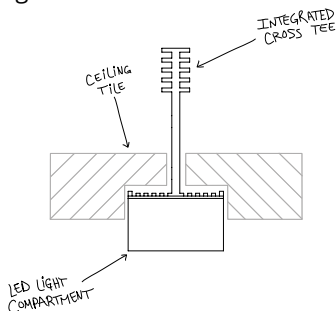

JLC-Tech specializes in structurally integrated linear lighting that seamlessly unifies with the ceiling. Our flagship product, the T-BAR LED, is designed, approved, and patented to replace the cross members in a suspended grid ceiling.

This innovative solution significantly reduces installation time and costs, addresses plenum challenges, and minimizes construction waste – all while enhancing the architectural ambiance of the space
